Open Enrollment is Under Way!

- Please remind your employees who are tobacco users that they have until November 30, 2022, to visit a provider to complete a tobacco cessation counseling session in order to earn their premium credit for 2023.
- To ensure the credit is applied, they must upload their office visit summary into the Document Center located in eBenefits.
- This action is ONLY for tobacco users who want to reduce their monthly premium by $60 per month in 2023. If an employee is NOT a tobacco user, they will simply need to attest to that during the online Open Enrollment process.
- If you haven’t already, click here to download the 2023 Open Enrollment poster to print it out and post at worksites or share via email with employees working remotely.
- If you missed one of the 2023 HBR Open Enrollment trainings or need to review, click here for the presentation.
OE Dependent Documentation Reminder & Checklist

• As a reminder, HBRs are responsible for ensuring that employees adding dependents during Open Enrollment upload the appropriate dependent verification documentation.

• Dependents added during Open Enrollment should have proper documentation loaded, along with being properly verified.

• Dependents added during Open Enrollment without proper verification and documentation will have their coverage canceled.

• The Dependent Census Report (Data & Reporting, Standard Reports, Census tab) is the most efficient way to see what dependents are still outstanding. Make sure to select “Open Enrollment” when running the report. Filter out those dependents who do not have coverage, then filter out those that have been verified. The remaining dependents will need to be addressed.
