North Carolina State Health Plan Attachment A-6: Contract Improvements

Prospective Contracting Improvements

Proposer:			
Network:			

Indicate by county and network, where you expect to make contractual improvements in provider reimbursement arrangements within the timeframe following the experience period and leading up to the January 1, 2025 effective date. Estimate the increase in the effective discount from the experience period to January 1, 2025. Express estimated improvements as the absolute increase in percent discount off vendor eligible charges - i.e., an improvement from 40% to 45% is a 5% absolute improvement in effective provider discount.
